

# Important information - Caution! Beware of Fake, Phishing Emails

Since few weeks some of our partners have received fake e-mails informing that celduc® relais has changed its bank details or performed any strategic evolution that can impact the business or asking you to download .zip .exe files which are virus.

These fake e-mails could come from @celbuc.com or @celduc-france.com or any domain names that look similar to @celduc.com !  
or could come from @celduc.com as well !

**BE CAREFUL, PLEASE DON'T MAKE ANY CHANGE OR DON'T OPEN ANY SUSPICIOUS ATTACHMENTS**  
**ALWAYS CHECK CAREFULLY WITH YOUR USUAL CONTACTS AT celduc® relais, PREFERABLY BY PHONE**

Hall 18 – Booth M79

## Single Phase SSR with Faston terminals For a quick connection !

Two models of our okpac® range are now available with Faston terminals fitted. Solid State Relays with FASTON terminals are appropriate mainly for the food industry and for switching current < 20A.

Tips for using our Website

-Use the quick reference search "**Find a product**"

50A - 24-510VAC - Ctrl 20-265VAC/DC -  
FASTON terminals

(name/reference)" to  
download our data-sheets

-[CAD files 2D and 3D](#) are  
available in "Technical  
Library"

-Give us the information  
you want us to put in our «  
News » (exhibitions, special  
events, ...)

## EAC approval for our Solid State Relays

The solid state relays and contactors made by celduc® relais  
are manufactured in compliance with major international  
standards.

For more information - [click here](#)

Last month we have finalized the certification of our Solid State  
Relays for **EAC** approval.

This certification enables marketing and installation of approved  
products in the territory of the Customs Union (Russia,  
Kazakhstan, Belarus) without any additional requirements and  
additional assessment or permission procedures.

## ISO9001 version 2015

The manufacturing process of our relays complies with the  
**ISO9001** requirements **version 2015**. We incorporate highly  
reliable components with a very high electromagnetic  
interference level which give to our products the highest life-time  
one can find on the market.
